## **Soccer Player Development Team Training Method**

The difference between winning and losing is often the successful execution on Set Play situation both on offense and defense.

In a 20 games season what if you could Score 5 More Goals and concede 5 Less Goals - a 10 Goals spread?

In some competitions, we have calculated that as many as 60% of all goals scored have been from Set Play...in others as low as 25%.

Take the lower figure 25% one out of every four goals. Do you, as a coach spend 25% or more of your tactical team preparation time on Set Plays? For the vast majority of soccer coaches the answer would be ..."No"! That's the difference between a winning and a losing season.

### **Topics of Soccer Player Development Team Training**

Principal of Attack  
Set Play  
Understanding the Game  
Creating Space  
Transitional Play  
Crossing  
Passing

Principal of Defense  
Finishing  
Decision Making  
Exploding Space  
Developing Team Play  
Shooting  
Small Sided Games
